

Solar Power Universal Portable Charging Box produces at least 40% more wattage than other Solar Charging Box at a much lower price.

Solar Power Universal Portable Charging Box provides power supply where grid power cannot be reached. Whether you are camping, doing outdoor activities, doing construction work, or living in remote areas, **Solar Power Universal Portable Charging Box** can provide instant power supply to your electronic devices or appliances. It can also provide emergency power supply when the grid power temporary fails.

With option pull-up handles and roller wheels, it is easy and convenient to carry. **Solar Power Universal Portable Charging Box** can be used for most common appliances like TV, radio, CD/DVD player, desktop computers, laptops, fans, lights, coffee pot, etc.

Features :

- Compact size, more efficient, reliable, and intelligent
- Optional input : Charged by direct sunlight (DC) or grid (AC)
- AC output : AC modified sine wave or pure sine wave 100/110/115/120V, 220/230/240V, 50/55/60Hz
- DC output : Include connectors for charging small electronic devices
- Safety protections including : Overload protection, over heating protection, battery low voltage disconnect and high voltage disconnect.
- Maximums Output : AC modified sine wave or pure sine wave 150W~1500W
- Customized designs available
