

Portable (Foldable) Solar Charger (21W, 12V)

Open it when charging, fold it when finishing. Easily to gather! Put it into hang-bag and charge it wherever you are!

Opened dimension: L*W*H: 79*58*0.5(cm)

Folded dimension: L*W*H: 29*27*4(cm)

Features:

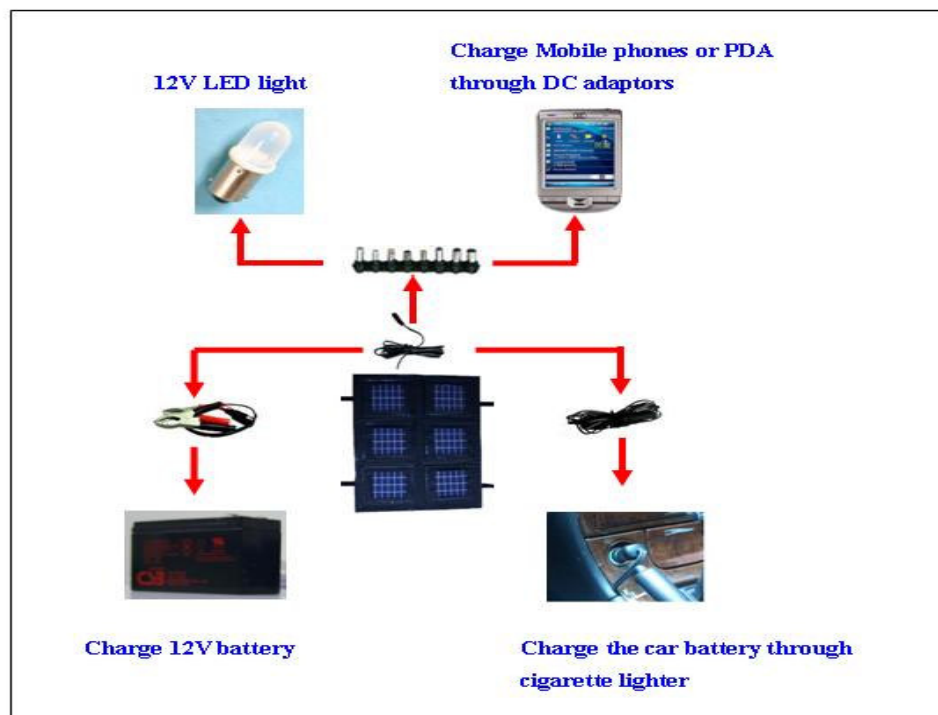

- Charge 12V battery.
- Maintain car or motorcycle's batteries in good condition.
- Connect 12V small fan and LED light.
- Directly charge laptop (will fit into the bag of laptop).
- If the product is 12V, such as PDA, digital camera, electronic dictionary, it can charge it with appropriate connector.
- Super convenient! Connect cigar-lighter in car to charge car battery.
- Charge anytime! Convenient and save money on your electricity bill.
- Compact and portable.
- Made of high efficiency solar cells which lengthen product life. It could last a lifetime.
- Include crocodile clip assembly cable, cigar-lighter assembly cable, DC connector, and solar module assembly cable.
- 100% made in Taiwan. The quality is guaranteed.

Object of usage :

1. [Charge laptop computer](#)

The size of solar module is compact and it is portable. You can put it into the bag of laptop, making use of the free solar energy as you charge anywhere.

2. [Maintain battery of car](#)

If you don't drive car a lot, you just have to put this product into cigar-lighter, it will automatically absorb solar power to charge. This product can make you maintain your battery anytime.

3. [Charge small electronic devices](#)

Charge mobile phones, MP3/MP4, IPOD, GPS, digital cameras, PDA and electronic dictionary, etc.

4. [Directly charge the D.C. lighting system or store electricity into 12V batteries and provide power for any products through DC/AC inverter](#)

Charge fan, televisions, construction equipments, lamps, radio, and most small appliance. It can also charge rechargeable battery.

Instruction for use :

- Plug it into cigar-lighter to maintain car battery, which can make battery use longer. Also, it can avoid car starting problem when you don't drive a lot.
- Charge 12V battery.
- Immediate charge laptop under direct sunlight..
- Lower the amount of usage of car generator, which leads to the effect of saving oil.
- The solar panel can use more than 25 years. It has longer product life than cars.

Way of usage :

Directly connect the positive and negative poles of solar module to the battery. Or connects the foldable solar module to the cigar-lighter on car, it can charge car battery. Or charge DC electronic device through device connectors.

Product's Specification :

- Certification: CE
- Solar cell: single crystalline
- Exterior material: canvas
- Vmp: 17.2V
- Imp: 1.22A
- Wattage: 21W
- Dimension: open – length*width*height: 79*58*0.5(cm)
- folded - length*width*height: 29*27*4(cm)
- Weight: 2kg
- Extra assemblies: Include crocodile-clip cable, cigar-lighter cable, DC inverter, solar module cable
- Product Warranty: 1 year
